

POLYETHYLENE WAX _Pak Wax 015

Description: - High softening, with low viscosity, good hardness, non-toxic, Good thermal stability, low volatility at high temperature, ...

Application: -Hot melt adhesive, color/filler masterbatch, pvc products industry, cable filler compound, rubber, painting ink, paint, coating and ...

Specification	Pak Wax 015 Bead	Test method
Appearance	White bead	
Particle size	40-70 mesh	
Acid number	< 0.1	ASTM D1386-10
Flash point	>205°C	ASTM D92-12B
Penetration index	≤ 5	(d.mm) ASTM D 1321
Water content	None	LABORTORY MANUAL
Softening point	≥105°C	ASTM E28(ring and ball)
Density	0.92-0.94	ASTM D 1505
Mass loss (150°C & 1h)	< 1%	
Viscosity (120°C)	10-20CP	ASTM D3236
